

### **Multi-Institutional Phase 1 Clinical Trial in Spring 2018**

BrainUp is pleased to announce the funding of a multi-institutional Phase 1 Clinical Trial based in Chicago for patients with stage 3 and 4 primary GBM (Glioblastoma). This study is based on original work from the laboratory of University of Chicago and is entitled **Phase 1 Study of Safety and Tolerability of Acetazolamide with Temozolomide in Adults Newly Diagnosed MGMT Promoter – Methylated Malignant Glioma**.

This exciting new trial will be a collaboration conducted at the University of Chicago with the principal investigator, [Dr. Bakhtiar Yamani](#), NorthShore University HealthSystem with [Dr. Ryan T. Merrell](#), University of Illinois Chicago with [Dr. Martin Kelly Nicholas](#), and Northwestern Memorial Hospital with [Rimas Lukas, MD](#), Northwestern Medicine Lou and Robert H. Lurie Comprehensive Cancer Center of Northwestern University and Northwestern Medicine Proton Center with [Dr. Vinai Gondi](#).

BrainUp presented Dr. Yamani with a \$175,000 check in December, 2017 to support this important Clinical Trial. The Trial is expected to begin in Spring of 2018.
